Interests

Travel, running, coffee, live music, and walks with my dog.

Most recently I fell in love with programming and want to turn this passion into a career!

Professional Summary

I am a self-motivated person who works with business units and customers to solve their problems with technology. I recently fell in love with programming and am now proficient in HTML, CSS, JavaScript, Python, and Java.

With a background working between businesses and IT, I have proven skills in project management and software development by way of the Agile methodology.

I hold an MBA with a concentration in Finance from the University of Akron.

Work Experience

Business Consulting Specialist
Columbus, OH, Nationwide Insurance, August 2017 - August 2020

- Collaborated with the Product, Actuary, and Underwriting Teams to document business requirements and specifications for our Employee Benefits quoting application.
- Wrote and submitted over 100 business requirements via Jira for developers to implement.
- Handled all user testing, defect management, and triaging during the UAT process.
- Led the project to implement Knowledge Advanced, a knowledge management application.

Underwriter
Columbus, OH, Nationwide Insurance, April 2015 - August 2017

- Analyzed requests for proposals for 7 employee benefit products in 48 states to determine the risk, insurability, and appropriate rate of each case.
- Served as a consultant to brokers and addressed their questions and concerns.
- Improved demographic analysis by compiling critical census information into Excel tables, allowing Underwriters to retrieve relevant data and case information quickly and efficiently.

Claims Adjuster, Homeowners
Columbus, OH, Nationwide Insurance, July 2012 - April 2015

- Evaluated, negotiated, and brought to final resolution insured homeowner claims.
- Prepared estimates for property repairs or replacement and approved payment amounts to policyholders.
